About Apples for Fred:

Fred is a lovable, young frog with a big heart and a bigger problem. Fortunately, Fred has wonderful, imaginative friends who each offer humorous, well-meaning suggestions to solve Fred's dilemma.

Apples For Fred will leave you with a smile as the friends band together with a charming mix of support and perseverance.

About Tator's Big Race:

The lovable friends from *Apples for Fred* are back in the second book of this charming series. Fred, Perdie, Cabbit and Tator face another heart-tugging challenge in Diane Shapley-Box's new book, *Tator's Big Race*.

This time, Tator feels left out, sad and ordinary. He needs the help of the clever, caring crew to help him find his special talent before this year's Applefest. Tator is convinced that the only way to feel important and appreciated is to win a magnificent trophy. He soon learns that true pride and joy can come in exciting and unexpected ways.
